IN EVERY DETAIL.

Separates trash from the water before the water is filtered.
Water filters upward through sieve, preventing trash from being mixed with filtering material. Bird nests, leaves, trash, etc., cannot possibly enter filtering material, as it is caught in the bottom of filter before water is filtered.
When screw cap is removed, it allows a filter to dry out thoroughly. There is no chance for bugs or any kind of insects to accumulate as it does in other filters from dampness.

Beulah Marie Dix is a name that stands for the swaggering and daredevil vein in romance. Those who have read "Hugh Gwyeth"—and who has not?—will need no invitation to secure "The Journey's End" in the "New Lippincott" for October.

Yeager & Rice.

Mr. Jas. Yeager has bought half interest in the Dolph Rice livery stable in Danville, and the firm is again Yeager & Rice. They have one of the best appointed stables in Central Kentucky and are always glad to wait upon their friends.

Read The Record.

It is now the time of year to lay in your winter outfits. Before making your purchases consult the columns of THE RECORD and you will see what to buy and where to get it. It costs money to advertise in a newspaper, and you may rest assured that unless advertisers had the bargains they would not be spending that cash.

Remembering the Dead.

A number of old soldiers have completed arrangements to place a monument over the grave of James T. McQuerry, who died in Lancaster about 18 years ago. He was a member of Morgan's command and served with distinction. The movement was started by Jim Dillon, a federal soldier. Mr. McQuerry was a well-known and much-liked man.

It's Settled Again.

The Danville Advocate has driven another nail in Garrard's coffin. It says: "Danville is a fine town, no doubt of that. This road MUST come by here." This edict, together with Stanford's \$25, will surely settle the matter. The Southern can not get around such commands and lavish use of money.

Leg Break.

Mr. John Cress, one of Garrard's most upright and honorable citizens, met with a sad misfortune Monday. While riding along Crab Orchard St., near railroad, a negro was showing a horse which ran into Mr. Cress, breaking his leg below the knee. He was removed to the residence of Mr. Thompson, the limb set and he is now doing as well as could be expected. The break is not so serious as it is painful.

COMING UP NICELY.

Land Owners are Doing the Proper Thing Toward Securing the Rail Road Through Old Garrard.

The committee selected by the Commercial Club, Messrs. Geo. T. Higginbotham and Jas. N. Denny, have seen every land owner along the proposed route (save one or two who will be seen this week) and every one has agreed to submit the case to a committee of two, one selected by the Club and one by the owner, and to accept what damage the committee will say is done their land. This is the most reasonable and just way to get at the matter, and the land owners show their sound sense by the way they have gone about it. Each party has selected its man and a meeting will be held tomorrow, Friday, to make the formal appointment, and the men will then go over the route and say what they think is a reasonable amount to be paid the land owners in damages. We will know in a few days just what the right of way will cost us. Judging from the feeling all over the county, we do not believe there will be the least difficulty in raising the money. Men of all classes have expressed their intention to give according to their ability, and all hands are greatly encouraged at the outlook.

A survey will probably be made via Danville and Stanford, but, dear reader, believe us when we say that this survey through the other counties will not amount to a hill of beans if we come up to the scratch with our duty in this matter. The Southern has exactly the kind of survey she wants right here, and if she is given the right of way she does not want to go any other route. Some of the weak-kneed have said that because the Southern would be offered a bonus to come to Danville, it would certainly go that way. Now don't believe that for one minute. The Southern railway could take all the money in Boyle county and it would not keep the brakemen in chewing tobacco for one week. What does a road like the Southern care for a town the size of Stanford, Danville and Lancaster all pitched into a heap? What she wants is a direct line to make its connection, and the survey here fills that want. We are fortunate to be on this line, and if we do our part we will get the road, but if any antagonism is shown the road will be built elsewhere. Of course they are not going to buy a right of way through a county where the people would be hostile to them and keep them plastered over with little 2x4 annoying law suits.

We stick to our assertion that this road means the making of Garrard county, and now is the only opportunity we will ever have to get another rail road. If we miss this, its goodbye Paulanthy with us. Everything is in our favor, and what we want to do is to keep our shoulder to the wheel and not cease tugging away. We hope to give in next issue the exact amount to be raised.

They Know The Best Route.

Harry Giovannoli says in the Advocate: "If they didn't have some good reason for wanting to take in Lancaster and miss Danville, the expense of making the other survey would not have been incurred."

Right you are, old boy. They had the best reason in the world—they get the best route through Garrard.

A Paper at Paint Lick.

It was reported on the streets here Monday, that a newspaper was to be established at Paint Lick, this county. If the grazing is as short in that end of the county as it is here, the editor will find the picking pretty dry. Its the easiest thing in this world to start a paper, and anyone can get out the first few issues, but when the steep hills of time are encountered, those who started in to fill the "long-felt want" will find that all's not gold that glitters, especially in the newspaper field.

Will Build Parsonage.

At a business meeting of the members of the local Baptist church, it was decided to erect a parsonage on the lot adjoining, which is owned by the church. As the congregation now has to pay rent for a house, it is clear that it will be economy to put up a building on their lot. They will erect a frame dwelling, substantial and convenient. Here's a mighty good chance for those blessed with an abundance of this world's goods to show their liberality by contributing to this work.

Another Fight at Paint Lick.

It occurred between The Roller Mills of Burnam & Rucker and their customers and trade, and it seemed for a while that the mills were about to get licked but Burnam & Rucker have put on a double force of men and are now running their plant both night and day. They are now prepared for trade and exchange fully. Come from near and far, you can be accommodated generally inside of 30 minutes. Remember we stand on our flat feet and state to the public that we are experts at our business. 9-21-3t. BURNAM & RUCKER.

Goebel and Blackburn at Richmond.

The Richmond Climax telegraphs THE RECORD to announce the speaking by Hon. Goebel and Blackburn in that city next Monday, Oct. 2nd, county court day. A big delegation from this county will attend.

Another Lancaster Enterprise.

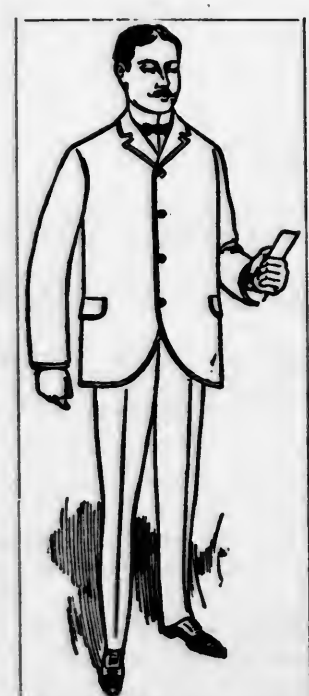

Mr. O. C. Heberling, a practical florist, has rented the Thompson property on York, opposite W. O. Rigney's and established a green house. He will raise all kinds of flowers and plants. Being a man of long experience and having worked in the largest green houses in the country, he understands the business thoroughly, and our people can get what they want in this line right here at home. Next spring he will erect two large hot houses and run the business on a much larger scale. Mr. Heberling has ordered a large stock of Dutch bulbs from Chicago which arrive about Oct. 13, and will sell them at reasonable prices. It is much better to buy these right here at home, and save taking chances on having them injured in shipping. Mr. Heberling can supply cut flowers in any designs on the shortest notice.

Court Day.

The largest crowd ever seen at a September court came in Monday. The streets were filled with people and an immense crowd swarmed around the stock pens. Stock of all kinds was here in great droves, and mule colts, as one fellow expressed it, simply hung on the bushes. Trading was quite lively, and good prices prevailed, as our stock column will show. The crowd was unusually orderly, and those who surrounded too much whiskey were of the good natured kind that do no one harm and attend to their own drunk. The stock ordinance was enforced and, while some thought it a little hardship at first, yet they soon saw the many advantages and now believe the plan a good one. Had all the stock here Monday been turned loose upon the streets, people could not have crossed, and it would have taken a solid week to get the pavements cleaned. Mr. Benga runs his bus to the pens, and the traders have no trouble whatever in getting there. At night, some of the left-overs got pretty drunk and made Rome howl with their Comanche yells and pistols. The merchants report a fair day, but not up to the usual September court.

CENTRAL RECORD

EVERY WEEK BY
LOUIS LANDRAM, Publisher.
LANCASTER, KENTUCKY.

TERMS: ONE YEAR, IN ADVANCE, \$1.00
SIX MONTHS, " " " .50
THREE " " " .25

THURSDAY, September 28 1899

LOUISVILLE will do herself proud in the big show to be given there on Oct. 9 to 21. Louisville and Lexington are both awakening to the progress of the times with an alacrity that makes every true Kentuckian rejoice. If the smaller towns will only shake off the spirit of mossbackism, the grand old commonwealth will soon outrank any of the Northern states in the spirit of enterprise. Kentucky has far superior resources to those of the states across the Ohio river and all she needs is for every fellow to go to work and develop them. We have been suffering from too much "Aristocracy, Sah." What we need is more workers and fewer street-corner loafers and politicians.

The daily press continues to devote columns telling how many thousands and tens of thousands of people were present to hear the different candidates speak. It seems to think that the fellow who has the biggest crowd ought to be elected governor. Buffalo Bill can get more people to his show than can Goebel, Taylor and Brown combined, and, according to the present idea, he should be made governor. We wouldn't believe the average report of a speaking if the writer would swear to it on a stack of bibles as high as Pikes Peak.

If the money wasted on the Dewey blow-out was used in sending enough men to the Philippines to stamp out the insurrection, what a vast more good would be accomplished. Dewey is a sensible man, and wants no such foolishness as is being gone through with at New York. Dewey is a brainy man, and simply did his duty. The secret of this great flourish of trumpets is, no doubt, principally to give the chance to a number of high-cock-a-lorums to ride white horses and march the streets in soldier clothes.

THE Courier-Journal printed sixteen attractive supplement pages to the regular edition Sunday. They were largely descriptive of the excellent facilities of the C. J.'s great printing facilities, which are the best, by far, outside the big eastern cities. Kentucky is now known to the world as the home of pretty women, fast horses and the Courier-Journal.

We frequently see "What some preacher said" in the present campaign. Great stress seems to be laid upon the narrator being a "preacher." Now, if a preacher has abandoned the pulpit for the political stump, he will tell a lie just as quick, if not a little quicker, than the old hands in the political harness.

TEDDY ROOSEVELT has mounted the raging stump on behalf of the republican ticket in Ohio. We didn't think he could stop telling how he whipped the Spaniards long enough to talk politics.

SHOOTING of "Generals" has become the fad in the mountains of Kentucky. "Colonels" might be slaughtered for the next twenty years and the crop would not be materially reduced.

No Right to Ugliness.

The woman who is lovely in face, form and temper will always have friends, but one who would be attractive must keep her health. If she is weak, sickly and all run down, she will be nervous and irritable. If she has constipation or kidney trouble, her impure blood will cause pimple blotches, skin eruptions and a wretched complexion. Electric Bitters is the best medicine in the world to regulate stomach, liver and kidneys and to purify the blood. It gives strong nerves, bright eyes, smooth, velvety skin, rich complexion. It will make a good looking, charming woman of a run-down invalid. Only 50 cents at E. E. McRoberts' Drug Store. 1m

Over in Japan guests at dinner are expected to carry home with them in a neatly wrapped parcel any portion of the meal they may not eat. The custom would be popular with many people in this country when they happen to be guests:

Real Estate Bought and Sold

I am in a position to advertise property and to get fair prices for it. Please consult me if you have any to dispose of, or if you desire to purchase The Graded School and an era of general prosperity, with a prospect for water-works and another railroad, have caused a number to seek homes in our city, and the value of property has been enhanced. Although seven residences have gone up, this year, there is not a vacant house in the city, and even building lots will soon be in demand. Until it is settled that the new railroad will be built, I offer the following property at the very low prices:

No. 1. A handsome residence, of 10 rooms, with two cisterns and all necessary out-buildings, beautifully located on Danville avenue. There are fifteen acres of land attached, with a front of 600 feet, thus furnishing building lots, which can be sold at good prices. The property is owned by Mrs. H. C. Kaufman and can be bought at the low price of \$5,000.

No. 2. A valuable brick residence, of eight rooms, on Lexington avenue, known as the Dr. O. P. Hill property. This is one of the best houses in the city and is well located, in a quiet neighborhood. There is an abundance of fruit and water, ornamental and shade trees, a fertile garden and everything necessary to make it highly attractive and desirable. There are four acres of land attached, furnishing three good building lots. For the present this property can be bought at the very low price of \$4,500.

I will show the above property to any one desiring to purchase. I will handle farms on reasonable terms. No sale no pay. M. D. HUGHES.

October Scribblers.

Good short stories abound in the October number. There are two of Joel Chandler Harris's amusing "Minerva Ann" stories; there is another O'Connor tale by W. H. Browne; a new writer, Judson Knox, tells a story of the humanizing of a bank-teller (illustrated); Brander Mathews contributes "In the Small Hours," and Quiller-Couch's serial rapidly approaches its dramatic climax.

More Local.

Superintendent's Notices.

The election notices and poll sheets for the election of trustees, which is to take place the first Saturday in October, are now at the Superintendents office. Trustees will please call and get these notices.

Teachers will please call and get their term reports.

ELISA J. LUSK, Co., Supt.

The City Council would do a wise act if they would require the patent medicine and other fakirs to move out to the suburbs. These swindlers rake in many dollars nearly every court day, and it is strange that men buy from them. Lancaster has two of the best drug stores in the state, and if you want medicine go to them; they will not swindle you.

For Hog Killing.

Benge & Miller have constructed first-class slaughter pens and are prepared to kill and dress your hogs or cattle at reasonable figures. For sale by R. E. McRoberts, Lancaster.

Big Times at Middsboro.

Middlesboro is preparing to put the big pot in the little one on the 5th, 6th and 7th of next month. She will have a Grand Fair and Midway, one bigger and better than has yet been attempted by any town in the state. A. M. Kinnaird is secretary, and informs us that neither time nor money will be spared in making the arrangements complete in every detail. Low rates will be given by the railroads, and this will be a fine time for our people to visit the Magic City.

A Few Pointers.

I am prepared to furnish you a ready-made or a tailor made, all wool suit at prices ranging from \$7.50 to \$30. Pants at \$2.50 to \$9. Overcoats at \$6.50 to \$25. Fits and quality guaranteed, as our many customers will testify. Prices are uniform and yield a very small profit. I will compare prices, quality and fits with any house. Wanamaker & Brown sell only good quality, and operate the largest and oldest house in the nation. They sell at a small profit, and the quality sold brings in a good revenue. 900 samples to select from. A fine line of excellent hosiery and underwear to select from, at Philadelphia prices. I will appreciate a call and insure perfect satisfaction. A chance for a \$5 pair of pants will be given for each \$5 worth of goods purchased, and the customer who guesses nearest to Goebel's plurality over Taylor will receive the pants. Boys and young men under 35 breast measure, can have a suit cut and made to measure, fit guaranteed, at a saving of 25 per cent, as I represent the only Boy's tailoring house in the country. Suits tailor made at \$4.50 to 6.85, 10 and \$12. Overcoats 7.00 to \$9. Extra quality and superior workmanship. Buy early and get the best. M. D. HUGHES, Ag't. Adjoining New Hotel.

San Maclaren on The Church.

It has been known for some time that San Maclaren has been critically studying modern church methods, and the results are now to be made public in "The Ladies' Home Journal." His first article is called "The Candy-Pull System in the Church," and in this he frankly states what many have felt but have scarcely ventured to publicly assert with regard to social tendencies of the church. The great English author will then handle "The Mutineer in the Church," and after that answer the somewhat stalling question, "Should the Old Minister be Shot?"

Notice of Election.

Notice is hereby given that on Tuesday, November seventh, eighteen hundred and ninety-nine, from seven o'clock a. m. to four o'clock p. m., continuously, an election will be held in and for the City of Lancaster, Kentucky, by the qualified electors of said city, to determine whether said city shall incur an indebtedness of fourteen thousand dollars for the purpose of furnishing said city with water, (fifty fire hydrants), for seven years. Said indebtedness to be paid in seven equal annual installments. The amount therefore necessary to be raised annually by taxation is two thousand dollars.

A WONDERFUL CURE OF DIARRHOEA.

A prominent Virginia Editor Had Almost Given up, but was Brought Back to perfect Health by Chamberlain's Colic, Cholera and Diarrhoea Remedy.

READ HIS EDITORIAL.

From the Times, Hillsdale, Va. I suffered with Diarrhoea for a long time and thought I was past being cured. I had spent much time and money and suffered so much misery that I had almost decided to give up all hopes of recovery and await the result, but noticing the advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy and also some testimonials stating how some wonderful cures had been wrought by this remedy, I decided to try it. After taking a few doses I was entirely well of that trouble, and I wish to say further to my readers and fellow-sufferers that I am a hale and hearty man to-day and feel as well as I ever did in my life. He only raised eleven pounds but he sold a one-half interest in this \$500 to a Tennessee man. He refused \$1,000 for the eleven pounds. The wheat is a cross between the Genesee Giant and the Fultz and is to be called the Hoosier Giant. The grain is square and smooth-bearded and of a barely-red

color. A distinctive feature is its stouping capacity. Individual grains produced 95 stalks ranging down to 23 stalks giving each hill a bushy appearance. It was sown at rate of 10 lbs to the acre and bore 44 bushels to the acre. The owner says it will easily produce from 80 to 100 bushels to the acre. It will not be on the market for several years.

Piles Cured!

If sufferers will use Banner Salve according to directions a positive cure will result in worst cases. Guaranteed. 25c. C. C. & J. E. Stormes.

Concerning this year's crop the United States Department of Agriculture says that there is unquestionably a somewhat smaller acreage in tobacco than there was last year. While there has been some increase in Massachusetts, Connecticut, New York and Wisconsin, there is a very considerable reduction in the state which are the largest producers. In Kentucky and Tennessee there is a reduction of about 15 per cent. In North Carolina and Ohio of about 10 per cent. and in Virginia of 5 per cent.

Twenty-eight states and territories show an increase the five leading graners being Wyoming, 426,805; Ohio, 305,451; Utah, 206,427; New Mexico, 202,228; Montana, 117,305.

Eubanks at 3.88; corn in the shock \$1.90 per barrel. House plunder and farming implements sold well. Just at this time the turkey crop is beginning to attract attention, as it is nearing maturity and will soon begin to move toward the markets, says the Winchester Sun. The high prices for turkeys last year was a great stimulus to their production, and the broods last spring were larger and more numerous than for many years before. Then the season has been exceptionally favorable, reducing the loss on account of diseases common to young turkeys through wet seasons to the minimum. It is estimated that the crop in this section is at least 30 per cent. larger than the crop of last year, while reports from the West and Northwest indicate even a large increase in those sections. The stock everywhere is reported unusually fine, but, owing to the increased supply, with the demand remaining about the same, prices are apt to rule somewhat lower this year than last.

A very good indication that good prices may be expected to continue on Burley tobacco, the larger manufacturers are now buying a large amount of this tobacco of the best grade, privately. As the lower grades all along brought good prices, no objections can possibly be made by shippers of prices prevailing for some months to come. The fact that several large independent factories are soon to get in operation and are now buying stock, has served to make the trust bid more liberally, and the fight for stock between the big companies and the trust promises to get warmer as the fight grows older. It is thought the trust is trying to shut out several of the new factories from getting tobacco, and this and a known shortage in Burley stocks, should make tobacco of the Burley variety a very good commodity to have around at the present time, and we anticipate many will not be anxious sellers from now until the new crop begins to arrive freely, about December 20—Louisville Weed.

STATE NEWS HAPPENINGS.

LOUISVILLE RACES.

A Cold Rain Fell at Intervals During the Afternoon and Made the Track a Little Slow.

LOUISVILLE, Ky., Sept. 27.—The fifth annual meeting of the Louisville Driving and Fair association began Monday afternoon and notwithstanding the cold rain which began to fall about the time the horses were ready to score for the first heat, a 2:30 trot, rain fell at intervals during the afternoon and made the track a little slow. J. M. C., a bay gelding, 8 years old, owned by J. M. Clements, of Birmingham, Mich., fell dead in the first heat of the 2:34 trot just as the field of nine was about to swing into the home stretch. The principal event of the day was the Commercial Club stake, value \$2,000, for 2:08 class pacers. This was won in straight heats by Arlington. Hal B, the 3 to 10 favorite in the first heat, sustained his first defeat since the Boston meeting of last year. He had to be content with third money. The most exciting contest of the day was the trot for the 2:13 class.

It was practically a race between Success and Tudor Chimes, though 13 horses took the word in the first heat. Chimes won the first heat by a neck, Success took the second by a nose, and Chimes won the third and last heat by a head, Geers driving his prettiest.

BRADLEY'S MANIFESTO.

Petition for Pardon Must Be Made in Writing—No More Personal Appeals Will Be Heard by the Governor.

FRANKFORT, Ky., Sept. 24.—Gov. Bradley has determined not to be annoyed during the few remaining weeks of his administration by pardon seeking, and has accordingly issued a manifesto. It is as follows:

"For the benefit of the public generally, notice is given that personal appeals for pardons will not be heard. In this way much time is consumed to no purpose. All applications must be made in writing, as contemplated by the constitution."

Circumstances indicate that, as usual, the few weeks remaining of the governor's term are to be selected as the time in which those who have been refused pardons heretofore, or those who have been confined for years, and who could have appealed and failed to do so sooner, are preparing applications, with the hope, doubtless, that, owing to pressure of business, strict attention may not be given to their cases, and they may be enabled on that account to obtain pardons. Such applications will be promptly and summarily overruled unless they develop some fact or circumstance of recent origin which will justify investigation.

RUNNING SORE ON HIS ANKLE.

After Six Years of Intense Suffering, Promptly Cured

By S. S. S. Obstinate sores and ulcers which refuse to heal under ordinary treatment soon become chronic and deep-seated, and are a sure sign that the entire circulation is in a depraved condition. They are a severe drain upon the system, and are constantly sapping away the vitality. In every case the poison must be eliminated from the blood, and no amount of external treatment can have any effect.

There is no uncertainty about the merits of S. S. S.; every claim made for it is backed up strongly by convincing testimony of those who have been cured by it and know of its virtues by experience.

Mr. L. J. Clark, of Orange Courthouse, Va., writes: "For six years I had an obstinate, running ulcer on my ankle, which at times caused me intense suffering. I was so disabled for a long while that I was wholly unfit for business. One of the best doctors treated me constantly but did me no good. I then tried various blood remedies, without the least benefit. S. S. S. was so highly recommended that I concluded to try it, and the effect was wonderful. It seemed to get right at the seat of the disease and force the poison out, and I was soon completely cured." Swift's Specific—

S. S. S. FOR THE BLOOD

—drives out every trace of impurity in the blood, and in this way cures permanently the most obstinate, deep-seated sore or ulcer. It is the only blood remedy guaranteed purely vegetable, and contains not a particle of potash, mercury, or other mineral. S. S. S. cures Contagious Blood Poison, Scrofula, Cancer, Catarrh, Eczema, Rheumatism, Sores, Ulcers, Boils, or any other blood trouble. Insist upon S. S. S.; nothing can take its place. Valuable books mailed free by Swift Specific Company, Atlanta, Ga.
